NEW PRODUCTS

Hunter Douglas launches a new drapery range, Ballette™ Drapery Sheers

Hunter Douglas*, manufacturer of window-covering products, has added Ballette™ Drapery Sheers to its line of high-quality window fashion. Ballette™ provides beauty and privacy without traditional vertical vanes. Its translucent folds create a dimensional layer. With a pull of the cord, the sheers rotate and open to reveal outside views. These sheers are available with optional vanes for increased room-darkening and privacy. A matching valance, fabric swag or coordinating wood fascia further customises the Ballette™ look. The shading can also be ordered without a valance or fascia to accommodate elegant draperies or top treatments.

Furnishing fabrics by Maishaa

Maishaa* recently launched its furnishing fabrics for bedcovers, curtains and cushions for this winter. The range includes silk collections such as Nirvana, Soltatan, Soltrana and Arcade, and double-layered fabrics such as Nymbus and Bastil. In addition to these, Maishaa offers a wide variety of winter-friendly furnishing solutions in the form of crushed silks, thick-layered silk fabrics and embossed and appliquéd textured fabrics. These fabrics are available in rich colours such as burgundy, brown, maroon, red and black.

Hindware launches its high-end designer Teuco Hydrospa

Hindware*, recently launched Teuco HydroSpa*, an Italian designer brand for the Indian market. Besides its electronically controlled functions, steam sauna and whirlpool with ultrasound, Teuco HydroSpa also provides a hot spa experience and aromatherapy. This hydrospa comes with rounded contours, in a wide range of colours, superior finishes and accessories. It also comes with an anatomically contoured, soft headrest. By blending the shape, contour, finishes and accessories of this hydrospa, you can create a scenario to reflect your particular taste and ensure that the hydrospa is in sync with the setting of the place where it is installed. The spa comes in round, rectangular and square shapes. It has an array of different massage settings and seats designed according to the principles of hydrotherapy, as well as numerous jets with customisable settings.
