Hindware Protection Plan

Hindware products are designed to create a great ambience and provide years of trouble-free service. However impurities in water and fluctuations in electricity tend to interfere with their smooth functioning and lead to unnecessary problems and expensive unscheduled repairs.

Get the HPP today and let our trained technicians take care of all the hassles such as clogged pipes, irregular flushing and water-flow, changing batteries etc. with their periodic maintenance cycles. The HPP also includes cost of parts that may be required in regular repairs (refer to HPP agreement for more details).
